

In the Afterlife

Bobby Caldwell

Remember Paris, we were young
Without a care and having so much fun
Those days are gone, what we've gone
Into the things we've always done

When we're in heaven, at the gates
Someone distinguished will hand down our fates
I hope that you know
Our love will never end

When they ask us to explain our behavior
And to account for what we've done
Have no doubt we'll farewell and everyone
In the afterlife

When the angels consider me and you
When they pass the words
Someone will wave us through
'Cause our love is strong
We'll go on in the afterlife

Do you remember, how we danced
That flattened song, all seemed to be romance
Time after time, life was sublime
And we left everything to chance

We're the same as way back when
And the day swayed just the way it was then
Me loving you
Seeing it through my hands

When they ask us to explain our behavior
And to account for what we've done
Have no doubt we'll farewell and everyone
In the afterlife

When the angels consider me and you
When they pass the words
Someone will wave us through
'Cause our love is strong
We'll go on in the afterlife

When the angels consider me and you
When they pass the words
Someone will wave us through
'Cause our love is strong
We'll go on in the afterlife

When the angels consider me and you
When they pass the words
Someone will wave us through
'Cause our love is strong
We'll go on in the afterlife
