

Once You Give In

Bobby Caldwell

Once you give in
You'll realize
You need my love to guide you
I'm beside you

If you could see through my eyes
How love can be
Just take my hand
Trust in me

No more dreaming
Of what might have been
Darling once you give in

Once you let go
Open your mind
Just leave the past behind you
It's behind you

And if you think love is blind
You'll never see
Girl all the things love can be

No more dreaming
Of what might have been
Darling once you give in

Once you give in
You will see that your life
Will be so much better
If you'd only open the door

Once you give in
You will know how love
Can be greater than it ever was before

Once you give in
Then you will see
Girl all the things love can be
