

Another Song on My Mind

Bobby Darin

All right, girl
Were makin music lyin here tonight
The kind of song that cant last long
But keeps on feelin right

I hear the tune youre playin
And it makes my soul unwind
But I cannot sing your melody
With another song on my mind
Oh, no

I can feel the shadows
Of a worn out melody
Simple tune that ends too soon
In broken harmony

The interludes of changin moods
That never seek to bind
But I cannot sing your melody
With another song on my mind

Treat me like a movie
That you have seen before
You know the way the ending goes
But you still come back for more

So, girl keep on composin
Let the music be
And always kind of song for you
A sometime song for me

And when your bed is empty
Please dont think me unkind
But I cannot sing your melody
With another song on my mind
Oh, no

And when your bed is empty
Please dont think me unkind
But I cannot sing your melody
With another song on my mind
Oh, no
