

Hey Magic Man

Bobby Darin

Hey, magic man
Come, when you can
I have a plan
If you're willing
Come, show your face
Any old place
You can erase
All this killing

One thundred words
Spoken and heards
Keep in the thirst
From your children
Some little sign
If you don't mind
Help us to find
What we're building

You know, lunacy lives
And nobody gives
And
Win elections
So if you exist
How have you missed
Making a list
Of corrections?

Hey, magic man
Come when you can
I have a plan
If you're willing
Come, show your face
Any old place
You can erase
All this killing
