

I Want You With Me

Bobby Darin

When I was little, my mama said to me
Someday you'll find a love to last eternally
I want you with me everywhere I go
Ooh, please don't leave me, you know I love you so

I'll be the ruler of this whole wide world
If you'll only say you'll be my girl
I want you with me, in everything I do, whoa
Ooh, you know I need you, baby, you know I'm in love with you

There is no mountain that I can't climb
Find me the mountain, child, I'll find the time
I want you with me, every day of my life
Ooh, you know, you can make me happy
Baby, won't you be my wife?

I'll swim an ocean with a ragin' foam
If I know you'll be there when I come back home
I want you with me, you know I love you so
Ooh, yes, I want you with me, baby, everywhere I go

You know, you know, I want you with me
Yeah, yeah, I love you so
Ooh, well, I want you with me, baby, everywhere I go
