## **Lady Fingers**

**Bobby Darin** 

Lady fingers on my shoulder Have gone to my head Making me lazy And forgetting The thing that I've said Lady's talkin' With her hands And she's telling me That I'm her man

Got me feelin' Lady fingers Are wheelin' me 'round Makin' me lose All of the troubles and blues That I've found Whisp'rin' words Inside my head

And she's provin' Ev'ry word she said Now that I'm inside Your head Telling you the things You never heard And she's telling me Without a spoken word
