

# She Needs Me

**Bobby Darin**

She needs me  
She doesn't know it  
But she needs me

And so no matter where she goes  
Though she doesn't care  
She knows i'm there

She needs me  
I ought to leave her  
But she needs me

I guess it very bright  
Just to tag along  
But right or wrong  
I'm here, I'm hers

And I'll be a friend or a lover  
Because my one ambition is  
To wake her and make her discover  
She needs me

I've got to follow where she leads me  
Or else she'll never know that I need her  
Just as she needs me

She needs me  
I've got to follow where she leads me  
Or else she'll never know that I need her  
Just as she... needs... me...
