

Sweet Little Thing

Bobby Day

Well, I told everyone about you
How much I really love you
How much you really mean to me, always
And you promise to say "I do"

Well, I told them how young you are
I told them how young you'll stay
And I told 'em how my love will grow for you
As the years grow day by day

Well I will always be mad about you
Don't you know I always want you to love me too

Well, I told them how young you are
I told them how young you'll stay
And I told 'em how my love will grow for you
As the years grow day by day

Well I will always be mad about you
You know it baby, I'll always want you to love me too

Sweet little thing
Don't you know I-I'll be loving you until I die
Sweet little thing, I love you
Little thing you are mine alone
I know that our love goes on and on
Let everybody know that you are the only one
Sweet little thing, I love you

Well I will always be mad about you
You know it baby, I'll always want you to love me too

Well, I told everyone about you
How much I really love little you
How much you really mean to me, always
And you promise to say "I do"

Well, I told them how young you are
I told them how young you'll stay
And I told 'em how my love will grow for you
As the years grow day by day
As the years grow day by day
As the years grow day by day
As the years grow day by day
As the years grow day by day
