

## Brand New Kind of Love

Bobby Goldsboro

If I could love you  
If you would let me love you  
We'd have a brand new kind of love

We'd take it easy  
We'd take it nice and easy  
A light and breezy kind of love

And the lovers that you've known before  
You'd never want to see 'em any more  
And this feeling that I feel for you  
Maybe you could get that feeling to

If I could hold you  
If you would let me hold you  
My arms would enfold you like a glove

It would be special  
It would be something special  
We'd have a brand new kind of love

If I could love you  
If you would let me love you  
We'd have a brand new kind of love

We'd take it easy  
We'd take it nice and easy  
A light and breezy kind of love

Let me take you to my world of love  
The kind of lovin' you've been dreamin' of  
And you'll find when I open the door  
You've never really been in love before

If I could love you  
If I could love you  
We'd have a brand new kind of love  
A brand new kind of love  
A brand new kind of love  
A brand new kind of love
