

He's Part Of Us

Bobby Goldsboro

Though the union of two others gave him birth
And we were both denied
We will love him for all that we are worth
And he will grow the love as his mom and dad
As days go by
And we will be the family he has never had
We must try

You and I and he from this day will be a family
Now he's part of us

And it's sure that there's a heaven up above
This I do believe
He was heaven sent for you and me to love
And we must help his mind and body grow up strong
You and I
And it'll be so hard to spank him when he's wrong
But I will try

You and I and he from this day will be a family
Now he's part of us

And when he's old enough that he can understand
We'll tell him the story
And if we've loved him right he'll take it like a man
And we must never let him feel that he's alone
We must try
He'll know we picked him out to be our very own
You and I

You and I and he from this day will be a family
Now he's part of us
