

One Deep Love

Bobby Helms

One deep love it oughta be one deep love it's gotta be
You for me and me for you and one deep love

What happened to the long walks what happened to the sweet talk
s
What happened to the bells that ring and the birds that sing
For you and me
What happened to holding hands or making a million plans
What happened to me what happened to you
What happened to one deep love

One deep love it oughta be one deep love it's gotta be
Every little thing the future brings for you and me
One deep love it oughta be one deep love it's gotta be
You for me and me for you and one deep love

What happened to the hold me tight what happened to the candle
light
What happened to the extra trips back to my lips
Where you had to go
What happened to Sundays that used to be fun days
What happened to me what happened to you
What happened to one deep love

One deep love it oughta be...
You for me and me for you and one deep love
