

Cherie

Bobby Rydell

Oh, Cherie
Baby, don't you worry
For I love only you

Oh, Cherie
I'm half crazy
With the love so true

Yes, my love is love
Forever, ever, ever true
Never fear, love is here to stay
Cherie, hurry, hurry, hurry
Let me kiss your worries away

Cherie
A thousand stars in the skys
They all know that
I'm not telling a lie

Angel baby, believe what I say
I'll still love you tomorrow
Even more than I love you today
I'm yours, come what may

Yes, my love is love
Forever, ever, ever true
Never fear, love is here to stay
Whoa, oh, oh, oh
Cherie, hurry, hurry, hurry
Let me kiss your worries away

Cherie
