

L.O.V.E.

Bobby V

In and out the club night after night,
Still got me lonely every night, lonely every night.
Other side of the bed feels so cold,
And I roll over to the side, over to the side.

I got two, maybe there, wanna be with me,
It could be you, it could be you.
(I don't know) I don't know, let's go slow, feel the flow,
But do you feel me, do you feel me?

Wanna call it love, love, love,
But I want it to find me,
Want it to find me.
Love, love, love,
So away from my baby,
Way,way,way from my baby,by,by.
Cause I really need...
L.o.v.e. girl
L.o.v.e. girl
L.o.v.e. girl
Cause I really need, cause I really need
L.o.v.e. girl
L.o.v.e. girl
L.o.v.e. girl
Cause I really need, do I really need?

And I work with no girl on my side,
It really hurts me deep inside, hurts me deep inside.
But Imma wait 'till I find that special one,
That really loves me head to toe,
And the feeling's mutual.

I got two, maybe there, wanna be with me
It could be you, it could be you
(I don't know) I don't know, let's go slow (slow), feel the flow (flow, fl,
fl, flow, flow, flow)
But do you feel me, do you feel me?

Wanna call it love, love, love,
But I want it to find me,
Want it to find me.
Love, love, love,
So away from my baby,
Way,way,way from my baby,by,by
Cause I really need...
