

Don't Ever Take Her for Granted

Bobby Vee

If you're lucky enough to have a girl who loves you
Don't let her slip away
Make sure that she knows just how much you want her
Every single minute of the day

Don't ever take her for granted
Be sure to tell her how you care
Whenever she needs you just stay right by her side
She'll feel much better if you are there

Don't ever take her for granted
Don't ever let her be blue
Hope she forgive you
Each time you make her cry

One day she'll find someone new
She gave her heart and you hold the key
You can lose it so very easily

So don't ever take her for granted
The heart that breaks may be your own
Be thankful she loves you
For someday you may see just like me
You will be all alone

Don't ever take her for granted
The heart that breaks may be your own
Be thankful she loves you
For someday you may see
Just like me you will be all alone

Don't ever take her for granted
Don't ever take her for granted
