

# Maybe Just Today

**Bobby Vee**

Baby I don't need to know who  
Your big love was yesterday  
Oh, and there's no way to tell  
If you and I are gonna  
Make it all the way

'Cause what is past is past  
And what will last  
Mmm, girl, it's gonna last

All that matters  
Is today and tomorrow  
Baby, baby, maybe just today

The times they are a changing  
Girl, with ever quickening speed  
Ah, but today I wanna give you all  
The love and laughter that you need

'Cause what is done is done  
And what's to come  
Mmm, baby, let it come

All that matters  
Is today and tomorrow  
Baby, baby, maybe just today

Don't be afraid to live for the moment  
Trust me and love me this way  
If you keep looking back or thinking ahead  
Baby, we're gonna miss out on today

'Cause what is past is past  
And what will last  
Mmm, girl, it's gonna last

All that matters  
Is today and tomorrow  
Baby, baby, maybe just today

All that matters  
Is today and tomorrow  
Baby, baby, maybe just today

All that matters  
Is today and tomorrow  
Baby, baby, maybe just today
