

Together

Bobby Vinton

Together, together
Our love is strong
And we belong together
I need you to be at my side

When we walk together
I'll take your hand
And we will stand together
We'll show them there's nothing to hide

They say we come from two different worlds
And worlds apart, they say we will have to stay

But we'll be (together) together (together)
No matter what the world may say
No matter what the price we pay
I promise you we'll always stay together
Forever, together

Yes, we'll be together
No matter what the world may say
No matter what the price we pay
I promise you we'll always stay together (together)
Forever (forever), together (together)
