

Do It Right

Bobby Womack

There's a friend of mine
I believe if he was here today
you all know him
he would sing this song something like this

I don't care how you do it girl
long as you do it right
and if you don't love me baby
tell me right
and if you doing it right
it shouldn't take all night
cause there's nobody here
but me and you
let me see you do all the things
you say you don't ever do
how to do
how to do

Tell me how can a tiger be a lamb
and if you want to take me baby
for what I am
you know what I am

if you're going to love me baby
you gotta love me right
and if you're gonna hold me baby
hold me tight
hold me tight
I don't care how you do it
long as you do it right

If it feels good to me baby
good god almighty
shake it all night
