

Real Love Please Stand Up

Bobby Womack

Oh would the real love please stand up
Identify yourself to me
Would the real love please stand up
And tell me are you right for me?

I needed a love and then came you
I just knew you were gonna
Gonna see me through
All those lies
I kept living around the change
And now it seems like I might be
Headed back down the same road again

Oh would the real love please stand up
Identify yourself to me
Would the real love please stand up
And tell me are you right for me?

You've shown me, you've shown me things
That I never, never seen
Girl, you took me places that I never, never, never dreamed
Two minutes and
You get bump inside my soul
And my papa always told me
Anything that I could show and go

Oh would the real love please stand up
Identify yourself to me
Would the real love please stand up
And tell me are you right for me?
Are you right for me?
Real love (stand up)
Please stand up (identify)
Identify yourself to me
Oh would the real love please stand up
And tell me are you right for me?

I must admit girl that you wear a disguise (wear a disguise)
But I fell hardy at the party
Even the food was a prize

Oh would the real love please stand up
Identify yourself to me
Would the real love please stand up
And tell me are you right for me?
Won't you stand up?
Won't you take a stand?
Would the real stand up
Tell me are you right for me?

I want it to work out, just stand though
If you're out there girl just
Stand
Stand, stand, stand, stand

Oh would the real love please stand up
Identify yourself to me (all you got to do is stand)

Would the real love please stand up
And tell me are you right for me? (tell me are you right, are you right for
me?)
Oh would the real love please stand up (I got to know)
Identify yourself to me
Would the real love please stand up
And tell me are you right for me? (the only way I know, girl you gotta, gott
a)
Stand up (stand up, stand up)
