

Take It Tomorrow

BoDeans

Talk about love talk about emotion
Talk about the weather well I feel under
Talk about time talk about change
But it don't make me feel any better

Sometimes baby it's hard to see
Blind to the love and the honesty
Close our eyes count to three
Picture love in a memory

Take it tomorrow take it tomorrow
It'll be all right be all right

Days go by shades of blue
Nights fall down on me and you
That's all right if this is all wrong
Maybe there's nothing that we can do

Take it tomorrow take it tomorrow
It'll be all right be all right

Baby don't it feel like the rain is gonna fall
Take away these tears
Ain't it funny when you take a look back
It don't feel like wasted years

Days go by shades of blue
Nights fall down on me and you
That's all right if this is all wrong
Maybe there's nothing that we can do

Take it tomorrow take it tomorrow
It'll be all right be all right
