

## Five Minutes Away

Bodyjar

Now you think you know what to do  
And things are coming back to you  
Don't tell me it's hard to see  
It'll work out right

All you need is five minutes away  
Your turning every stone today  
Don't tell me it's hard to see  
It'll work out right

I can't believe you lied to me  
There's no use trying to explain  
And every time you cross that line  
Dissolving everything away

Now you think you know what to do  
There's always something else to prove  
Don't tell me it's hard to see it'll work out right  
Just in time for somebody to say  
I'll leave it here for you it's ok  
Don't tell me it's hard to see it'll work out right

I can't believe you lied to me  
There's no use trying to explain  
And every time you cross that line  
Dissolving everything away (2x)
