

Underground Radio

Bombshell Rocks

I went to your school of broken sence
You showed me the door, I walked out by myself
I came for the knowledge, now I'm gonna get the rest
I'm ready to go
Step right in to this smalltown show
I tune in underground radio

Well, come on and examine me
Examine my thoughts and my qalities
My will come straight out of loaded fucking energy

I'm gonna show 'em
Everything I know
Underground Radio

The channel of a visionary and a critic
Breaking down the lies systematic
Antiquated slogans from a time barely known
They fall and then they're gone
One by one
