

Surface

Bonobo

Surface out of you, I've never build the view
We're ever burning through
When all we have to do is talking without the words
I never could enough
[?]
Paper thin, paper weight
I'm closer now
I'm closer now
See the surface
I could make it alright now
We're not perfect, I can make it up
I can make it up
I can make it up
I can make it up
I can make it up
I can make it up
Can I make it?
But what you wanna do?
I'm pissed off
[?]
Every words you name
It's hard to say the truth
I've never could enough
[?]
Paper thin, paper weight
I'm closer now
I'm closer now
See the surface
I could make it alright now
We're not perfect, I can make it up
I can make it up
I can make it up
I can make it up
I can make it up
I can make it up
Can I make it?
