

# Elated

Boomkat

I can feel it coming  
Oh  
I can feel it coming

I'm so bored  
Staring at the clock  
Rockbottom lying on the floor  
But I can't be bored  
Never not a second more

I feel it coming on

Why can't I always feel this elated  
When I come down it's bound to ?  
Whatever it takes I've never hesitated  
Better come down to ?

Why can't I always feel this elated  
Why can't I always feel this elated

Moving slow  
The will to resist  
Don't exist  
But my craving grows  
I'm all alone  
Where did everybody go

I feel it coming on  
The demons in my head  
Have become my only friends

Why can't I always feel this elated  
When I come down it's bound to ?  
Whatever it takes I've never hesitated

Better come down to ?

It's hard enough  
Getting out of bed each day  
It's hard enough  
Staying entertained  
It's hard enough  
I try to figure out what's wrong  
Until I feel it coming on

The demons in my head have become my only friends  
The demons in my head have become my only friends  
The demons in my head have become my only friends  
The demons in my head have become my only friends

Why can't I always feel this elated  
When I come down it's bound to ?  
Whatever it takes I've never hesitated  
Better come down to ?

Why can't I always feel this elated  
Why can't I always feel this elated

Why can't I always feel this elated  
Why can't I always feel this elated
