

# Purge

Boondox

The fuse is lit and drowned in accelerant  
Exposive situation and I am in my element  
Fire, brimstone, bring it on, no testament  
Everybody duck when the fan hits the excrement  
I'm on a highway to Hell with no soul left to sell  
The smell of sulfur got a motherfucker straight buzzin'  
I'm locked and loaded, Lord I'm out of control  
And I know that we are at the end and I'm ready for the second coming  
Reconnect with the contact  
And check another name off the list like a neurotic Saint Nick  
I am the reaper, reaping, creeping up on demons  
With an army full of heathens who are ready for the same shit  
Apocalypse, it's time to purge  
Death is in the air and I got the fucking urge  
To bring them all to their knees  
This is what they wanted make 'em bleed, motherfucker bleed

I will rid the world of all the hatred  
By hating harder than anyone did  
They keep me from trying to have a great life  
They're always having me pulling my away

I never thought it would've come down to this  
But there was never really way that we could ever exist  
In a world full of people crushed up under a fist  
They wanted puppets but it's time that we resist  
I'm feeling evil like Knievel, we will kill so many people  
There won't be nobody left to make a sequel  
These fucking weasels always praying on a feeble  
Kneel is lethal from the needle it's too late to make it peaceful  
You always reap what you sow and now it's out of control  
Dice are rolled and they all coming up seven  
Always spreading the hate and now it's too fucking late  
They met the plate, bring it on, this is Armageddon  
They want to keep us all in chains  
False sense of freedom while leeching on our veins  
Always selling us a lie, but we've had enough  
Time to die, motherfucker, die

I will rid the world of all the hatred  
By hating harder than anyone did  
They keep me from trying to have a great life  
They're always having me pulling my away

It's looking like the time is right  
To grab an axe and hold it tight  
And turn off each and every light  
And murder what is shining bright  
This is what I'm bringing to the party of destruction  
I need no introduction  
Let the fire burn inside the circle of pain  
And we can all stand in the middle of me one to remain  
And you can hold it in a riddle we can solve but all the same  
I rather battle like a viking and put you all in the grave

Earth rumblin'  
They must have summoned a two headed dragon of destruction

To make a promise that'll punish them  
With purge tactics open the closed caskets  
Our enemies are evil motherfuckers die faster  
Push 'em to the foot, and put em in line  
They say that we're evil and they despise mine  
My kind is killers that roll deep  
Like ores from moonlight to sunshine  
Destined to blow mine, say it for me one time  
I want them all dead, I want them all dead  
I want them all dead, I want them all dead  
Want them all dead, want them all dead  
Want them all dead. I want them all dead

I will rid the world of all the hatred  
By hating harder than anyone did  
They keep me from trying to have a great life  
They're always having me pulling my away
