

Love Song

Bootsy Collins

Love song
One that we can dance to
One we'll romance to
This is a love song
One that we can dance to
One that we'll romance to
Inspired by the look in your eyes
I roam to see the melody
Yeah baby, to the tune of a love that I knew
Should come between you and me
To the rhythm of the way you walk and the way you talk
My heart just skips a beat (to the rhythm, to, to the rhythm)
I love seein' them crescendo into full-fledge harmonies
And we're singin'
And we're singin'
Love song
One that we can dance to
One we'll romance to
This is a love song
One that we can dance to
One that we'll romance to
Girl I'm crazy about you
I get so excited, I can hardly think
You see there's one thing about you girl
Ah, that keeps my heart turnin'
Turnin', turnin' girl
To the rhythm of the way you walk
And the way you talk
I can't believe the way I feel about you, girl I'm not complaining
It's about this feeling that I'm ridin'
I feel so good that words can't explain
So fascinating n' exciting
I just want the world to know you are the music that I sing
Love song, ooh yeah, yeah, yeah
Love song
L-O-V-E
L-O-V-E
Love
I want cha, I got to have you yeah
Love song
Listen girl, baby
Love song
I love you, I need you
In this love song, yeah
Love song
Got to have your love yeah, baby
This is a love song...
