

Down And Out

Booze & Glory

Nothing comes easy, that's a lesson learnt
Don't expect nothing and you'll never get hurt
But there's a price to pay for the best you made
And take it on a chin or you'll never gonna win

Coz when you're down and out
The ones that stick by you
Are the ones that count
Coz when you're down and out
The ones that sick by you
Are the ones that stick around

The odds are against you, that's the way it is
Count ur chips, hedge ur bets and make the best of it
What's the point of living if you never take a chance
If you don't, well you know - you'll always come in last.
