

## Behind Enemy Lines

**Born from Pain**

Forced to fight, behind the lines  
Trying to find my way  
In a warzone called society  
Can we really be free?  
Force to fight grab and claw  
Against the enemy  
There's no help or time for dreams  
And it hardens me  
Pushing down, destroy my will  
Kept at bay, in for the kill

We're all behind enemy lines  
We're all under siege  
Under Pressure, under attack  
It's getting harder to breath  
We're all behind enemy lines  
We're all behind

Forced to fight behind the lines  
Locked in a living cell  
Pushing down a slippery road  
Sliding down to hell  
Forced to fight struggle and rise  
In the trenches of life  
Those supposed to represent us  
On the other side
