

## Analogs in a Cell

Born of Osiris

Cut, paste  
I never mentioned the outcome to myself  
Gone - stay - the repetition  
The augments seem to help

Shifting into the curve  
All I know is I need you  
I need you, I need you by my side  
Crawl inside, I'll never leave you  
You're always on my mind  
I need you by my side

Do you know what it, what it means  
To be human? The baseline universe  
When, when will it stop? We are approaching  
The plateau, at a breakneck pace  
The baseline universe  
At a breakneck pace

Now - face the new temptation  
A gateway to ourselves  
Bend - crack - a revelation  
The analogs in a cell

Shifting into the curve  
All I know is I need you  
I need you, I need you by my side  
Crawl inside, I'll never leave you  
You're always on my mind  
I need you by my side

As soon as we thought the system was broken  
We finally learned how to force it back down  
We all altered the signal and discovered the meaning  
The growing importance of man and machine

As soon as we thought the system was broken  
We finally learned how to force it back down  
We all altered the signal and discovered the meaning  
The growing importance of man and machine
