

# Come Back

Born Ruffians

Oh how I worry  
Please, baby, hurry  
Come back, come back, come back to me right now  
Oh these things seem to take some time

You go, I hope maybe I'll be fine  
I walk a steady line  
Never again will I make somebody mine  
and isn't everyone trying to make their life  
into their favorite film or something of the like?

I missed you in March  
I missed you in November  
I missed you on my birthday, which I know you don't remember  
Oh pretty baby, you took your heart away  
and oh how I love you, come back to me today

and isn't everyone trying make their life  
into their favorite film or something of the like?  
oh that I worry, please, baby, hurry  
come back, come back, come back to me right now  
oh that I worry, please, baby, hurry  
come back, come back, come back to me right now  
oh that I worry, please, baby, hurry  
come back, come back, come back to me right now  
oh  
come back, come back, come back to me right now  
oh, oh, come back, come back, to me right now
