

10.000 feet.

Bosson

I live the dream, when I'm awake
I close my eyes and fly away
So take my hand, don't be afraid
Don't be afraid

Oh baby, baby
I won't let you go now
Baby, baby
I'm walking on clouds
Oh baby, baby
I won't let you go now
Baby, baby

Ten thousand feet up in the air
Turn up the love and I'll be there
Ten thousand feet up in the air
Ten thousand feet up in the air
Ten thousand feet up in the air
In the air

Ten thousand feet up in the air
Turn up the love and I'll be there
Ten thousand feet up in the air
Ten thousand feet up in the air
Ten thousand feet up in the air (in the air)
Turn up the love and I'll be there
Ten thousand feet up in the air (in the air)
Ten thousand feet up in the air

Something about you, I can't explain
Like butterflies in pouring rain
You lift me up, you take me high
You take me high

Oh baby, baby
I won't let you go now
Baby, baby
I'm walking on clouds
Oh baby, baby
I won't let you go now
Baby, baby

Ten thousand feet up in the air
Turn up the love and I'll be there
Ten thousand feet up in the air
Ten thousand feet up in the air
Ten thousand feet up in the air
In the air

Ten thousand feet up in the air

Ten thousand feet up in the air (in the air)
Turn up the love and I'll be there
Ten thousand feet up in the air (in the air)
Ten thousand feet up in the air
