

# Every Single Time

Bosson

Cause every single time I close my eyes...  
And every single day when sun will rise...

It's not easy for me to fall in love and love again  
It's not easy for me to unbreak my heart and forget the pain  
It's not easy for me trying to pretend that I'm just a friend  
It's not easy for me...

Cause every single time I close my eyes I dream of you  
And every single day when sun will rise I'm thinking about you  
Cause every single time I close my eyes I dream (I dream) of you (of you)  
And every single day when sun will rise I'm thinking about you

It's not easy for me to let her love and to love again  
It's not easy for me cause I realize this is our due end  
It's not easy for me trying to pretend that I'm just a friend  
It's not easy for me...

Cause every single time I close my eyes I dream of you  
And every single day when sun will rise I'm thinking about you  
Cause every single time I close my eyes I dream (I dream) of you (of you)  
And every single day when sun will rise I'm thinking about you

Cause every single time I close my eyes I dream of you  
And every single day when sun will rise I'm thinking about you  
And every single time I pass you by I smile, I do  
But every single smile is just a lie, my heart still cries for you

Cause every single time I close my eyes I dream (I dream) of you (of you)  
And every single day when sun will rise I'm thinking about you  
Cause every single time I close my eyes...
