

# Bad Machine

Boston Manor

I fell by the wayside  
I fell in the gutter  
Lost all of my money  
And I lost my lover  
I met a stranger  
Who bet double or nothing  
I just wanna be someone  
I just wanna be something

I'll never say sorry  
Cause I'll never be free  
You float like a butterfly  
You sting like a bee  
You're everywhere I go  
You're always watching me  
Get the hell out of my head  
Get the hell out of my head

You cracked your whip  
You sucked your thumb  
You blew me a kiss  
And the jig was up  
I broke both my ankles on the way down  
It was a long way down  
Such a long way down

I'll never say sorry  
Cause I'll never be free  
You float like a butterfly  
You sting like a bee  
You're everywhere I go  
You're always watching me  
Get the hell out of my head  
Get the hell out of my head

Get the hell out of my head  
I'll never say sorry  
Cause I'll never be free  
You float like a butterfly  
You sting like a bee  
You're everywhere I go  
You're always watching me  
Get the hell out of my head  
Get the hell out of my head

I'll never say sorry  
Cause I'll never be free  
You float like a butterfly  
You sting like a bee  
You're everywhere I go  
You're always watching me  
Get the hell out of my head  
Get the hell out of my head

And I'm just a puppet  
Who's drunk on his dreams  
I'll never say sorry

I'll never be free  
I'm through being sober  
Because what's in it for me  
I'll never say sorry  
I'll never be free
