In Maya

Boy George

Boy I like the way you stand there's no blood upon your hand you turn the world around for me chased the fools out of my life when I'm wrong you'd set me right you are really waisting me When I'm lying here afraid and full of fear My heart is telling me our love is insincere You smile that wicked smile like you know everything And I hear oh yes I hear I can hear the angels sing In maya In maya In maya In maya you're in maya Blessed is the heart of man so many ways to understand you know everything I fear oh boy you breath a lot of pain and you make the oceans sway it's so good to have you near In maya In maya In maya In maya you're in maya when I'm scared I protect myself I put the blame on to some forfaith wicked words just to make you cry if i am true I apologise boy I like the way you stand there's no blood upon your hand you turn the world around for me chased the fools out of my life when I'm wrong you'd set me right you are really waisting me In maya In maya In maya In maya you're in maya don't you know you are in maya
