

# Battles of the Heart

Boy Hits Car

These lovely melodies  
Seem to torment me

Haunting me  
Just gotta get out of my head

Once again I'm standing here  
Staring out of my window  
I guess I'm still the same  
Cannot make it on my own  
Oh, will you come to me  
[?]  
The liberations of Spring  
Has Winter reeling with shock

There's something inside of you  
That makes you a part of me  
And this isn't something else  
When Jesus gave me  
They said you're losing their

These lovely melodies  
Seem to torment me  
These maiden voices scream  
Forever haunting me

So who the fuck am I, then?  
What the fuck have I become?  
When you look into my eyes  
Do you still feel something?  
Or will this time and this space  
Vanish in speculation  
Just like battles of the heart  
Our battle's fought to be won

And I don't want these drugs or booze  
To mess with creation [?]  
So this isn't something else  
When Jesus gave me  
My love is real, it comes

These lovely melodies  
Seem to torment me  
These maiden voices scream  
Forever haunting

Just gotta get out of my head  
Just gotta get out of my mind  
Just wanna get away from these  
Thoughts that lead me blind  
Just gotta get away from you  
Just gotta get away from me  
Just wanna find a place where we're  
All innocent and free

These lovely memories  
Seem to torment me

And this isn't something else  
When Jesus gave me  
They said you're losing their

These lovely melodies  
Seem to torment me  
These maiden voices scream  
Forever haunting me  
Haunting me  
Haunting me
