

Come On

Boyz II Men

[Chorus:]

Do you really wanna rock tonight
Come on come on come on come on
And if you feel that the vibe is right
Come on come on come on come on
Say you really wanna get your body tonight
Come on
We can dance if you wanna dance
All night come on come on

We can clear the floor tonight
And so much more tonight
I'm feelin' so good
Wanna dance the night away with you
Hey DJ, play my song
Wanna party all night long
If you feel what I'm feeling don't be scared to join in
Come on

[Chorus]

Girl, I've been peeping you
And you've been peeping me
Baby let's not waste any more time
(Cause I know you want to)
Got real close to me
Cause we felt so easy
The way you move your body looks so fine, fine
(You got me hypnotized)
The way you look into my eyes
And how you wear your hair
And oh the stylish clothes you wear
When you walked in the room
I knew that it was on
And I hope that this feeling
Goes on and on, come on

[Chorus]

[Chorus]

If you wanna dance
Come on and take a chance
If you wanna dance with me
Do you wanna move
I can make you move
Do you wanna move with me
With me

[Chorus]
