

# More Than You'll Ever Know

Boyz II Men

More than you'll ever know  
I know a lot of years have passed us  
But I still love you more than you'll ever know  
There was a time I felt it wouldn't last us  
And baby how I felt I didn't show  
Sometimes I took you for granted  
And thought that you would understand it  
But through it all we managed to make it through tough times

No I can't imagine not having you by my side  
Everything you are and all you do  
I'm still in love with you

More than you'll ever know  
Just like the stars in a thousand skies  
More than you'll ever know (ever know)  
Deeper than the place where the ocean floor lies  
You're still number one in my eyes  
And to this day I still get butterflies  
Know that I love you more than you will ever know

Sometimes I watch you sleep and  
Kiss you and fall in love all over again  
In the morning when you're leaving  
I start to miss my best friend  
You're my better half like a twin  
You complete my words when I begin  
We don't have to be validated  
With love we'll always make it

No I can't imagine not having you by my side  
Everything you are and all you do  
I'm still in love with you

More than you'll ever know  
Just like the stars in a thousand skies  
More than you'll ever know (ever know)  
Deeper than the place where the ocean floor lies  
You're still number one in my eyes  
And to this day I still get butterflies  
Oh wait, know that I love you more than you will ever know

See I don't ever want to be without you  
To me you're one of a kind (to me you're one of a kind)  
You're my everything (everything)  
Girl you're my sunshine  
You stood with me, stood by me through tough times  
So glad that you are mine  
Knowing you're my ride or die  
I love you

More than you'll ever know  
Just like the stars in a thousand skies  
More than you'll ever know (ever know)  
Deeper than the place where the ocean floor lies  
You're still number one in my eyes  
And to this day I still get butterflies

Know that I love you more than you will ever know
