D A Bm G A

D A

1. I was lost and alone

Bm

Trying to grow

Making my way down that long winding road

D A

Had no reason or rhyme

Bm

Like a song out of time

j

And there you were standing in front of my eyes

How could I be such a fool?

To let go of love

And break all the rules

Girl, when you walked out that door

Left a hole in my heart

And now I know for sure

D A

R: You're the air that I breathe

E

Girl, you're all that I need

G A

And I wanna thank you lady

D A

You're the words that I read

Bm

You're the light that I see

G

And your love is all that I need

2. I was searching the vain

Playing a game

Had no one else but myself left to blame

You came into my world

No diamonds, no pearls

Could ever replace what you gave to me girl

Just like a castle of sand

Girl, I almost let love slip right out of my hands

And just like a flower needs rain

I will stand by your side

Through the joy and the pain

R: You're the air that I breathe...
