How many times Have I told you tonight There's no need to worry It'll all be alright So don't walk away At the end of the day I'll make you sorry If you decide to stay Sometimes it's hard to hold on That's when your heart needs to be strong That's how love goes (that's how love goes) Don't ask me why Only love knows What you're feeling inside That's how love goes (that's how love goes) One day it's goodbye Then it's just one more try Nobody knows how love goes (how love goes, how love goes, how love goes)

More than I see

(more than I see)

More I believe

That nothing is certain

When you're following your dream

So all I can do

(all I can do)

Is keep holding you

(holding you)

Maybe together

We can make them dreams come true

Sometimes it's hard to hold on

That's when your heart needs to be strong

[CHORUS]

Sometimes it's easy
To think you understand
Just then you see it
Slipping through your hands

[CHORUS to fade]
