

## Circus Act

Bracket

Please look at me now  
Look at all the things I do  
I won't pay attention to you  
I hope I can gather a crowd

Everyone should know I'm at my happiest  
With a lampshade on top of my big head  
My circus isn't dead  
My nose is turning red

I want you to notice me right now  
Please look at me when I show you how

When I try to look out to the crowd  
I'm blinded by my arrogance  
There's no one out there to arouse

I try to see you but what can I do  
With the stars in my eyes  
I'm going nowhere, I'll make it I swear  
Even if I have to lie  
Anything to make everyone love me
