

Lonely

Brad Sucks

She was away from home and lost in the night
Her place was far too far away to find
He was alone and happy to see someone new
He said it's nice to spend the night with you

Nobody told me
It would be lonely
Maybe we're going
Where we're supposed to be

He said come with me, I'll take you back
Even though it'll surely make me sad
She said maybe we'll be together soon
Remember me and take all this with you

Nobody told me
It would be lonely
Where are we going
Feels like I'm floating

He wasn't scared, he was terrified
He was alone
He was sure
He was gonna die alone
He felt a tear and he multiplied
He let go
And it felt
Kinda like he was going home
