

Never Get Out

Brad Sucks

Brad's all full of crap.

Note twisted to the max I'm,
In the middle of a charming second.
I'm in change with the tune of action,
All I wanted was a little reaction.

Don't be hanging around my friend.
I said I'm, all twisted up in wires.
And even though you know it's best,
You never get out - you never get out.

So strange when you're out confessin,
In the trench with the impressin.
I never wanted to learn my lesson,
All I wanted was a little attention.

Don't be hanging around my friend.
I said I'm, all twisted up in wires.
And even though you know it's best,
You never get out - you never get out.

Don't be hanging around my friend.
I said I'm, all twisted up in wires.
And even though you know it's best,
You never get out - you never get out.
