

Not Like Us

Brantley Gilbert

Every small town's got its boss hog
Big dog steady running the show
Yea attitude, tattooed, sleeves rolled up
He's all swolled up and nowhere to go

Everybody's rolling around in four wheel drives
And jacking up their trucks
Yeah they think they living it up

Not like us
We're on another level
These folks round here
Two-stepping with the devil
I'm calling yall's bluff
Y'all drinking, y'all smoking it up
Show me what you got boy
I'll show you that you're not like us
Wanna be, yeah you know you wanna be like us
Wanna be, but you're never gonna be like us
You're not like us

Everybody likes to light it up with your buddies
Get to buzzing like a neon light
Hit the strip, get lit man, take another sip
Hit the lick on a Saturday night

Yeah they closing down and throwing down
Until the sun comes up
Yeah they think they living it up man

But not like us
We're on another level
These folks round here
Two-stepping with the devil
I'm calling yall's bluff
Y'all drinking, y'all smoking it up
Show me what you got boy
I'll show you that you're not like us
Wanna be, yeah you know you wanna be like us
Wanna be, but you're never gonna be like us
You're not like us

Everybody's rolling around in four wheel drives
And jackin' up their trucks
Closing down, and throwing down
Until the sun comes up
You say if I were one of y'all
You know I got you all
Everyone of us want all of, all of y'all

Wassup
We're on another level
These folks round here
Two-stepping with the devil
I'm calling yall's bluff
Y'all drinking, y'all smoking it up
Show me what you got boy

I'll show you that you're not like us
Wanna be, yeah you know you wanna be like us
Wanna be, but you're never gonna be like us
You're not like us
