You're not allowed to say a thing at all
If you can't prove that what you're for
But hey man if I know one thing
Well, I won't fight your fuckin' war

This ain't our town
No, this ain't our town
This ain't our town

Go tell my lost friends in Texas
So what's the meaning and what's the message?
Don't mess with Texas
Don't mess with Texas
Don't mess with Texas
Texas

This ain't our town
No, this ain't our town
This ain't our town

Well, I don't cater to Republicans
Who say they're punk when they're just drunk
And I don't cater to the other party
Who make amends with bodies in the trunk

This ain't our town
No, this ain't our town
This ain't our town

And the sun is going down

This ain't our town
No, this ain't our town
This ain't our town
Na na na nanananana na
