

# Another You

Breakbot

You know I look for another love  
I was searching for another clue  
But I was trying to find another you  
You let a boy go be a man  
And I truly understand  
Baby girl take my hand

And let me love you (all night)  
Just let me hold you (tonight)  
Just let me love you (all night)  
Just let me hold you (tonight)

You know I wanna [?] (all night)  
You got to tell me something (tonight)  
You know I wanna [?] (all night)  
So let me love you (tonight)

And last night I was thinking of  
Why we do all the things we do  
Why can't we see each other's point of view  
And then a voice popped into my head  
It said love'll make you understand  
So baby girl take my hand

And let me love you (all night)  
Just let me hold you (tonight)  
Just let me love you (all night)  
Just let me hold you (tonight)

Baby let me be your lover (all night)  
Let me give you all my loving (tonight)  
Just say you need me, need me tonight babe  
Tonight

You know I wanna get your loving  
You can't keep on running  
You've got to tell me something  
Can you please be my woman  
You know I wanna get your loving  
You can't keep on running  
So let me love you  
So let me love you

And let me love you (all night)  
Just let me hold you (tonight)  
Just let me love you (all night)  
Just let me hold you (tonight)

Baby let me be your lover (all night)  
Let me give you all my loving (tonight)  
Just say you need me, need me tonight babe  
Tonight

(All night)  
(Tonight)  
(All night)  
So let me love you

So let me love you
