

# Deliverance

## Breakdown of Sanity

It was a long way, it took a long time to find a safety like this  
It took a long time to find a safety like this

I was almost giving up all my hope  
But in the end the picture in my head surpassed my expectations  
Expectations  
My expectations

A world so perfect, a world so fucking flawless  
The search has an end  
I don't need anything else other than this place  
A place where I belong  
Nothing is grey, even the dark clouds  
Above me shine bright

The ocean so deep, my spirit above (my spirit above)  
No more questions, only answers  
I take a deep breath, close my eyes  
A deep breath, close my eyes

Reach out my hand and try to stop the time  
To feel the perfection for longer

The warm, pleasant sunbeams on my face  
The sand between my toes and the breeze in my hair  
No one can take this moment away from me  
Away from me  
Away from me (away from me)  
Away from me (away from me)  
Away from me

Please, oh please don't take me away from this place  
Please don't wake me up  
Please don't wake me up  
Please don't wake me up from the place where I belong  
Where I belong
