

Kiss Me With The Wind

Brenda Russell

It's always said there's someone
waiting for you
I thought that it would never be
Someone really watching over me
But now I feel a breeze

Kiss me with the wind
Touch me with the sky sky
Hold me in the darkness
Wake me in the light
You're so very close
I'm so very shy shy
Kiss me with the wind
Touch me with the sky

Sometimes I worry
I'll be looking for you
But you keep moving off the line
I can never see you right behind
With me all the time

Kiss me with the wind
Touch me with the sky sky
Hold me in the darkness
Wake me in the light
You're so very close
I'm so very shy shy
Kiss me with the wind
Touch me with the sky sky sky

Oh, I never felt this way before
I never needed any more, no

Kiss me

You're so very close
I'm so very shy shy
Kiss me with the wind
Touch me with the sky sky

Kiss me with the wind
Touch me with the sky sky
Hold me in the darkness
Wake me in the light
You're so very close
I'm so very shy shy
Kiss me with the wind
Touch me with the sky sky sky

I waited so very long
and now you're really here
Oh baby
Kiss me
Touch me
Alright
Hold me
In the light, in the light

Oh yeah
Oh yeah
Don't you wanna
kiss me
Kiss me with the wind, with the wind

Hey now, hey now
Kiss me with the wind
Touch me with the sky (hey)
Hold me in the darkness
Wake me in the light (in the light)
Kiss me with the wind
Touch me with the sky (touch me)
Hold me in the darkness
Wake me in the light
Kiss me
