Need To Feel

Brennan Heart

Sun has lowered down to give the moon its day
I'll never stand in your way
But when I walk with you, you never give me space
All you do is stand in my way
You said you love me so you'd never let me go
But your words mean so little to me now
Sun has lowered down to give the moon its day
But I ain't coming home to play

No, I'm not gonna wait for love that we will never have
Too many songs we didn't sing, now we're lost for words
I need to feel it hurtin' in my bones
No, you're not gonna give me, never gonna give me
I need to feel [x2]
No, I'm not gonna wait for love that we will never have
Too many songs we didn't sing, now we're lost for words
I need to feel

Now the rain has passed and made the river flow
So many places to go
As time is ticking by, a waste to sit and cry
So I'll be the one to say goodbye

No, I'm not gonna wait for love that we will never have
Too many songs we didn't sing, now we're lost for words
I need to feel it hurtin' in my bones
No, you're not gonna give me, never gonna give me
I need to feel [x4]
