

# If You Were My Girl

Brett Eldredge

You light up every street light  
You stop every heart when you start that smile  
But somehow you're still lonely  
Oh let me show you why you're the only one I wanna give my heart to  
If you give me the chance, oh I'll show you it's alright  
Oh watch your life

To pick you up, I'd lay you down  
I'd hold you 'til you come unwound  
I'd make you feel like you're all I need  
In this whole world  
Ah, if you were my girl  
If you were my girl

You wouldn't be staring at the ceiling  
With a half broke heart wondering if that feeling is ever  
Going to fade away  
I'd change all that if you let me today  
Cause I've never wanted anything  
The way I want you next to me  
For all my life  
Come on let's ride

I'll pick you up, I'll lay you down  
I'd hold you 'til you come unwound  
I'd make you feel like you're all I need  
In this whole world  
Ah, if you were my girl  
If you were my girl

For the first time maybe ever, who am I kidding  
Girl I've never felt the way I feel, oh it's so real

Let me pick you up, and lay you down  
Hold you 'til you come unwound  
I'll make you feel like you're all I need  
In this whole world  
If you were my girl

If you were my girl  
If you were, if you were my girl  
If you were my girl  
Oh if you were, if you were my girl  
If you were, if you were my girl
