

# Sixty Years

Brian Setzer

Some people like to live  
where the livin' is good  
other people just like to live  
down in Hollywood  
Some people say live and let live  
On the edge of town  
But don't nobody try to  
Hold me down

We only got sixty years on the planet  
We only got sixty years on the planet  
We only got sixty years on the planet  
And if you get anymore  
You might wish that you hadn't

Some people try to tell me  
What I should be doin'  
Spent all my money  
My whole life screwin'  
Well they can have it all  
If that's what life means to them  
I won't even care if it happens again.

We only got sixty years on the planet  
We only got sixty years on the planet  
We only got sixty years on the planet  
And if you get anymore  
You might wish that you hadn't

Well everybody in this fucked up town  
Thinks that makin' money  
Makes the world go round  
Get off the phone  
And open your eyes  
You would see your own life  
Just passin' you by

Nobody wants to talk about it  
I guess that's true  
But you'll know, yes you will  
When your time is through  
Saint Peter didn't put you here  
For no reason at all  
So when it's time to go  
Oh brother stand tall

We only got sixty years on the planet  
We only got sixty years on the planet  
We only got sixty years on the planet  
And if you get anymore  
You might wish that you hadn't

We only got sixty years on the planet  
We only got sixty years on the planet  
We only got sixty years on the planet  
And if you get anymore  
You might wish that you hadn't
