

Mountain

Bride

I see the scar from a madman's knife
Marks on your wrists where he had you tied
You try and tell me that it don't mean a thing
I hear the sad song you're left to sing
(Sing for me)

You thought you could take it day after day
You're blessed - you can walk away
Your mother told you they were dirty old men
They say if you don't play, you just can't win

You want love, you need love
Love on the mountain (love)
Love on the mountain (love)
There is love (love)
Love on the mountain

His hands were folded as if to pray
But he never had any words to say
He walked beside you, then he left you alone
To face the fear that he places in your soul

You want love, you need love
Love on the mountain (love)
Love on the mountain (love)
There is love (love)
Love on the mountain

Prodigal girl, come out of the cold
Rest your feet before you explode
Prodigal girl I know you hurt
(Prodigal girl I know you hurt)
I know what they stole

Prodigal girl (prodigal girl)
Prodigal girl (prodigal girl)

You want love, you need love
Love on the mountain (love)
Love on the mountain (love)
There is love (love)
Love on the mountain

Love on the mountain
(You need love)
Love on the mountain
(You need love)
Love on the mountain
(You need love)
Love on the mountain
(You need love)
